Sample PDF for Smart PDF Analyzer Testing

This document is intentionally created for CST8917 Midterm Project testing. It contains text, metadata-like content, statistics-friendly paragraphs, and several sample sensitive data patterns: emails, phone numbers, URLs, and dates.

Document Owner Information

Field	Value
Prepared for	CST8917 Smart PDF Analyzer
Contact email	test.student@example.com
Support email	pdf-help@algonquin-demo.ca
Phone number	+1 613-555-0198
Alternate phone	(416) 555-2468
Website	https://example.com/pdf-analyzer
Backup website	www.algonquin-demo.ca/project-info
Creation date	2026-06-23
Review date	06/27/2026

Sample Business Text

The Smart PDF Analyzer is designed to process PDF files automatically when they are uploaded to Azure Blob Storage. The blob trigger starts a Durable Functions orchestration, and the orchestrator runs multiple analysis activities in parallel using the Fan-Out/Fan-In pattern.

This sample file should help verify text extraction, word counting, page counting, average words per page, estimated reading time, metadata extraction, and sensitive data detection. The expected sensitive data includes email addresses, Canadian-style phone numbers, web URLs, and date values.

For testing purposes, please contact project.owner@example.org or call 613-555-7788. The project documentation can be viewed at https://learn.example.org/serverless/pdf-demo. A sample meeting date is 2026/06/25, and another sample deadline is 27-06-2026.

This PDF is not a real personal document. All contact information is fake and intended only for software testing. The content is selectable text, so pypdf should be able to extract it during local and cloud testing.

Sensitive Data Test Block

```
Emails: cindy.test@example.com, group1.midterm@college-demo.ca, security-alerts@test.org
Phones: 613-555-1234, 1-800-555-9090, +1 647 555 3322, (343) 555-0101
URLs: https://github.com/example/smart-pdf-analyzer, http://localhost:7071/api/results,
www.microsoft.com/azure
Dates: 2026-06-27, 06/23/2026, 2026/06/12, 27/06/2026
```

End of sample document.
